COLLECTION

"BEARS WITH PERSONALITIES"

www.dougsbears.com

Dear Friends

Our 6th collection has been the easiest so far to create due to the fact that we have had so much inspiration and design ideas from our friends of Charlie Bears.

As we always promise we have tried again to make this collection as varied as possible to suit all our collectors wishes and I hope like me there are a few that have captured your heart.

With 60 new designs I know that I have made your choice very difficult but I am sure as you browse through the pages that you will understand why I find it tricky to leave anyone behind.

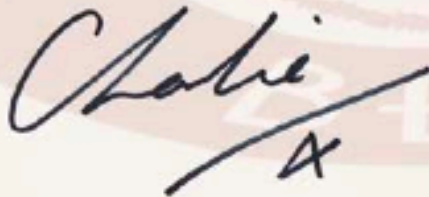

The Best Friends Club also this year is even more exciting with four new bears exclusively available to club members I hope you enjoy my selections.

(please see details on the back page)

William always cringes at this time of year as I sit in my chair and tick the pages of the bear brochures and create my bear wish list, I pass on copies to my family and friends and always leave one hanging around for William to find. He always asks me "do you not think you have enough" and I always reply "there is always room for one more bear"

Happy Ticking !!!

With Love From
